

The Waverly Public Library Foundation is currently accepting applications for special project proposals. The Foundation promotes projects that will be beneficial to the community through the library. Anyone in the community is welcome to submit a proposal. Proposal forms can be downloaded from the library website at http://city.waverlyia.com/wpl_foundation.asp. Proposed projects should be consistent with the library's current goals in the areas of creating young readers, stimulating the imagination, and creating a comfortable place to visit. Additions to the library funded by the Foundation's Special Projects Committee include a beanbag chair for the teen area and landscaping around the library building. Other projects funded by this committee include the microfilming of Waverly newspapers and work in the library gardens. Proposals are due on March 15th. Questions may be directed to Sarah Meyer-Reyerson, Library Director, at 352-1223 or smeyer@waverly.lib.ia.us.
